ATTENDANCE
We are focusing on student attendance and would like to remind parents why attendance is important.

If a student misses six periods in a week it is equivalent to a full day missed.
If a student misses a day a week for a term that is equivalent to two weeks’ worth of work missed.
If they miss a day a week for the year that is almost a full term of work missed.
A student cannot perform to the best of their ability if they are a term behind all the other students so it is important that students attend school and every period, every day.
