MEDICAL ALERTS

WHOOPING COUGH

Parents are advised that there has been a reported case of whooping cough in this area. Please watch for the following symptoms:
- persistent cough coming in bouts followed by vomiting;
- a cough which is a pronounced ‘whooping’ sound.

The student/child should be isolated and seek urgent medical help. They should be kept at home for at least five days after the commencement of antibiotics.

HEAD LICE

The school has been advised that nits/head lice may be present in the hair of some students within the school. Please check your child’s hair for nits/louse using the methods recommended in the information provided from NSW Health or visit the website (http://www.health.nsw.gov.au/publichealth/environment/headlice/treatment.asp). If you find any eggs or lice please commence treatment as recommended.

URGENT REQUEST FOR THE RETURN OF COMPLETED PARENT OCCUPATION STATUS FORMS

The way schools are funded has changed. The new funding model is known as the Resource Allocation Model (RAM). Our school receives its funding based on a formula which includes education levels and current occupation of parents. Obviously the school would like to receive the full entitlement of funding available.

Forms were mailed home recently for updating of Parent / Carers occupations and education levels. Please complete and return these forms to the school office this week (even if you have previously provided this information in an enrolment form), so that our records can be updated before the funding deadline. By providing this updated information the school’s funding entitlement will be calculated.

If you require another form, please contact the office. Phone calls will soon be made to those families who have not returned their form. Thank you for your cooperation.
