### BYOD Device Requirements Checklist

#### Wireless Connectivity

Wireless Connectivity is key to BYOD devices in schools! Devices must support **5Ghz dual band wireless** or 802.11 a/b/g/n (Make sure it supports both ‘a’ and ‘n’)

#### Operating System

To ensure the latest programs and software are compatible, we recommend the current or previous version of any operating system. E.g. iOS 6 & 5 for iPads/iPods

#### Battery Life

Minimum 5hrs

Devices need to last the school day, we recommend a minimum of 5hrs battery life

#### Memory and RAM

16 GB Storage 2 GB RAM

To be able to store and process data effectively these minimum specifications are recommended

#### Hardware Features

**Camera & Microphone**

These are necessary to ensure students can participate in 21st century learning activities, a stylus or keyboard may also be useful

#### Screen Size

Reasonable Size

Ensure the screen is of a reasonable size to enable ease of use throughout a school day

#### Other essential considerations

- **Casing:** Needs to be tough and sturdy, can it be dropped without breaking?
- **Weight:** Is the laptop light enough for your child to carry each day?
- **Durability:** Consider the overall durability of the device, are the keys and inputs sturdy

#### Accessories

- **Carry Case:** A Carry case or skin is essential in protecting your device and can provide ergonomic advantages
- **Insurance:** Devices can become lost or be broken easily at school, make sure your policy covers these eventualities
- **Warranty:** Make sure you consider purchasing extra warranty to reduce future repair costs as these devices will be used extensively

---

Look for a tough and thick outer shell

Remember this device is expected to last several years
